

Khaleedh Khan Pathan

ASPIRING DATA ENGINEER

Objective

Computer Science graduate with strong leadership, collaboration, and time management skills, passionate about Data Engineering and Data Science. Dedicated to leveraging technical expertise and analytical problem-solving to design robust data pipelines, extract actionable insights, and deliver impactful, data-driven solutions.

Education

2021-2025	Sree Vidyanikethan Engineering College B.Tech in Computer Science and Systems Engineering CGPA: 8.92/10
2019-2021	Sri Chaitanya Junior College Intermediate(10+2) Maths, Physics and Chemistry Percentage: 93.5
2018-2019	Maharshi Vidyanikethan High School Secondary School Certificate CGPA: 9.8/10

Internships

Apr 2024 - Jun 2024	VIRTUAL INTERNSHIP – JUNIPER NETWORKS Gained hands-on experience with cloud networking fundamentals, virtual labs, and Juniper cloud architecture.
May 2023 - Jul 2023	VIRTUAL INTERNSHIP – AWS ACADEMY Developed foundational AI/ML skills through AWS tools, covering supervised learning and real-world data projects.

Projects

Dec 2024 - Mar 2025	DECENTRALIZED AI-BASED HEART DISEASE PREDICTION SYSTEM USING ETHEREUM BLOCKCHAIN - Built scalable pipelines to ingest and process real-time patient data with Python (XGBoost, Flask). - Integrated ML outputs with blockchain to ensure secure, reliable ETL and data integrity.
May 2024 - Jun 2024	SPOTIFY CLONE - Built data pipelines to fetch, process, and manage music metadata from the Spotify API. - Optimized data retrieval and storage for streaming, search, and playlists using JavaScript and efficient front-end frameworks.

Publications	Dec 2024	Paper Published Titled "Integrating AI and Blockchain for Advanced Predictive Health Analytics", in the proceedings of 9 th International Conference on Research in Intelligent Computing in Engineering (RICE-2024), Annals of Computer Science and Information Systems, Volume 42, 2024.
Certifications	Jun 2025	<u>Datacamp Certified Data Engineer Associate</u>
	Oct 2024	<u>Github Foundations</u>
	Aug 2024	<u>Oracle Generative AI Professional</u>
Technical Skills	Programming	PostgreSQL, Python, Java, C, Javascript, PHP, Rust, Solidity
	Tools & Platforms	SnowFlake, Tableau, Apache Airflow, FiveTran, Looker
Coursework	Core Subject	Data Structure and Algorithms, Operating Systems, Computer Networks, Database management Systems, Software Engineering
	Electives	Software Testing, Information Security, Ad hoc and Wireless Sensor Networks, Cloud Computing, Machine Learning
Achievements	2023 - 2024	GDSC CORE MEMBER Served as GDSC Marketing Lead at Mohan Babu College. Successfully organized multiple tech-related events and workshops, boosting student engagement and outreach.
	2022 - 2023	Completed the Google Cloud Career Practitioners Pathway and the Google Developer Machine Learning Bootcamp , gaining hands-on experience with core GCP services such as BigQuery and Cloud Storage, and applying cloud-based tools to real-world data engineering and machine learning tasks.
Personal Attributes	Strengths	Quick Learner, Strong Analytical Thinking, Time Management, Adaptable to New Environments
	Soft Skills	Leadership, Team Collaboration, Communication Skills, Conflict Resolution, Decision Making, Negotiation
	Languages Known	Telugu, English, Hindi
	Interests	Playing Chess, Watching Tech Documentaries
