Projects

My Portfolio [↗](#)

In my portfolio, I utilized HTML, CSS, and JavaScript to create a responsive and interactive web interface. HTML was used for structuring content, CSS for styling and layout design, and JavaScript for adding functionality and interactivity, resulting in a user-friendly and visually appealing website.

Space Exploration Management System Database [↗](#)

Created a space exploration management system database using SQL Server, integrating tables for missions, astronauts, spacecraft, and scientific findings. Implemented queries, joins, and data manipulation for efficient analysis and resource allocation.

Certificates

AWS Cloud Foundations, AWS Academy [↗](#)

Demonstrated beginner-level proficiency in key AWS services such as EC2, S3, and IAM, showcasing the ability to deploy virtual machines, manage object storage, and define access controls.

Deep Learning Specialization, Coursera [↗](#)

Acquire foundational deep learning concepts such as CNNs, RNNs, LSTMs, Transformers, and optimization methods like Dropout and BatchNorm through the Deep Learning Specialization. Utilize Python and TensorFlow for real-world applications including speech recognition, music synthesis, chatbots, and NLP tasks.
